One Call Care Management Recognized with 2014 Outstanding Transportation Company Award

Professionals in Workers’ Compensation Colorado Recognizes One Call Transport + Translate for Providing Outstanding Transportation Services in Workers’ Compensation

JACKSONVILLE, Fla. (June 9, 2015) – Professionals in Workers’ Compensation (PWC) Colorado has honored One Call Care Management with its 2014 Outstanding Transportation Company Award. The award recognizes One Call’s Transport + Translate business unit for providing comprehensive transportation solutions in Colorado that improve the claims management process for adjusters, case managers and, ultimately, the injured worker.

Nominees for the annual PWC Colorado awards are selected based on nominations from peers in the workers’ compensation industry. The awards recognize industry pioneers who are making a difference for the workers’ compensation community.

“We’re honored to receive this award in Colorado as a validation of the national network of quality transportation providers we manage and the systems we employ to ensure timeliness, safety and ease of use for everyone involved,” said Jill Lawson, president, One Call Care Transport + Translate. “To achieve this goal, we embed quality into every point of the transportation process—including a recruitment and rating system that ensures use of the best provider each and every time, a hassle-free, time-saving referral process for adjusters and nurse case managers, and an organization that enables injured workers to get to their appointments safely and on time. It is all about ensuring the progression of the treatment injured workers receive, allowing them to recover and return to work sooner.”

Transportation is an often overlooked, yet critical, service for managing workers’ compensation claims. Injuries often prevent patients from driving or using public transportation, and many patients do not have family or friends who can provide reliable transportation to and from appointments. Providing transportation services to these injured workers gets them to these important appointments, with the right mobility tools. Transportation is often required for an injured worker to make a seamless transition from a hospital to a home setting to continue their recovery.

One Call Transport + Translate coordinates all aspects of transportation services, including travel, which saves critical time for adjusters and nurse case managers. These transportation and travel services include ambulances, stretchers, wheelchairs, domestic travel coordination, hotel accommodations and door-to-door ground transportation. In addition, One Call provides a team that is specialized in coordinating air ambulance travel when necessary with state-of-the-art on-board equipment and medical staff, all designed to mitigate costs and ensure safety and quality of care.
